Re: *Commission Invites Comments Concerning Use of
Portions of Returned 2 GHz Mobile Satellite Service
Frequencies*, IB Docket Nos. 05-220 and 05-221.

Dear Ms. Dortch:

On August 29, 2005, Peter Pitsch and/or Marjorie Dickman of Intel Corporation ("Intel") met with Fred Campbell of Chairman Kevin Martin's office, Barry Ohlson of Commissioner Jonathan Adelstein's office, John Giusti of Commissioner Michael Copps' office, and Don Abelson, Karl Kensinger, and Steven Spaeth of the International Bureau regarding the above proceedings.

In the course of these meetings, Intel made arguments contained in its Reply Comments filed on July 25, 2005 in IB Docket No. 05-220, and its letter filed on July 29, 2005 in IB Docket No. 05-221 which incorporated the aforementioned Reply Comments into the latter proceeding.

In particular, Intel urged the Commission to maintain its commitment to market-based spectrum management principles and adopt policies in the 2 GHz band that will promote the highest and best use of this spectrum and maximize consumer welfare. Intel recommended that the Commission allocate the full 24 MHz of returned 2 GHz spectrum to fixed and mobile terrestrial wireless operations and designate the spectrum for advanced wireless services.

Pursuant to Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1.1206, a copy of this submission is being provided to each of the abovementioned parties. Please contact the undersigned with any questions in connection with this filing.

Respectfully submitted,

/s/ Marjorie J. Dickman
